

30-Day Government Contracting Trial Success Guide

A four-week onboarding and value-assessment plan for Dakdan.ai

PRACTICAL GOVERNMENT CONTRACTING GUIDE | OCTOBER 2026

Week 1: establish your profile

Confirm company identity, capabilities, NAICS codes, target agencies and eligibility information. Correct errors before evaluating matches.

Week 2: evaluate matches

Review opportunities, score mission fit, identify mandatory qualifications and document reasons to pursue or decline.

Week 3: prepare a pursuit

Select one viable opportunity and assemble the requirements matrix, evidence, staffing assumptions and proposal responsibilities.

Week 4: measure value

Review qualified opportunities identified, hours spent researching, pursuit readiness, proposal progress and team adoption. Compare the workflow with your previous process.

Conversion decision

Before the trial ends, review plan limits, pricing and renewal terms. A free trial does not guarantee contracting success or automatically convert to paid service.

Implementation checklist

Assign an accountable owner, validate information against the latest solicitation and official agency sources, record decisions, and review outcomes after each pursuit. Treat AI outputs as research assistance rather than authoritative eligibility or legal advice.

Put the framework into practice

Explore Dakdan.ai at dakdan.ai, start a 30-day trial at dakdan.ai/register, or schedule a consultation at [Dakdan.ai consultation booking](#).
